MOLD-CLEAN[®]

WOOD CLEANER AND SURFACE CONDITIONER

Removes Mold and Mildew Stains • Cleans and Brightens Weathered Wood • Prepares Wood Surfaces for Treatment with Bora-Care[®] with Mold-Care[®] Moldicide Concentrate • Removes stains and algae from brick, concrete and other materials.

DESCRIPTION

Mold-Clean is a ready to use, pleasantly scented stain remover and cleaner formulated to prepare wood and other surfaces, especially for subsequent treatment with Bora-Care with Mold-Care Moldicide Concentrate. Mold-Clean contains special wetting agents and detergents to ensure penetration deep into wood pores for thorough stain removal and effectively minimizes or eliminates scrubbing in most situations. It is not corrosive to metal fixtures and fittings.

DIRECTIONS

Mold-Clean is a ready to use product. Apply liberally to the point of runoff to wood or other surfaces using a low pressure (15-20 psi) sprayer. Allow surfaces to remain wet for 5-10 minutes, then thoroughly rinse with water using a high pressure stream. COVERAGE: Approximately 150-200 square feet per gallon.

DO NOT ALLOW PRODUCT TO DRY ON SURFACES. APPLY ADDITIONAL PRODUCT OR A LIGHT MIST OF WATER TO KEEP SURFACES WET FOR 5-10 MINUTES TO MAXIMIZE CLEANING. If possible, apply to shaded, cool surfaces and avoid application in direct sunlight. On large jobs, clean surfaces in small sections to prevent premature drying. If application must be made in direct sunlight, lightly wet surface with water and allow to absorb prior to Mold-Clean application. Use of a commercial pressure washer for power rinsing may be necessary for total removal of some types of stains or surfaces with old finishes or paint remaining in some areas.
